

## Lane Community College would like to thank the voters for approving **Measure 20-306**

### The bond will be used to address:

- Safety, security and accessibility for all students on our campuses
- Workforce Retraining and Career Technical Education investments
- Classroom and learning space updates to meet the needs of current students

Our commitment to the community is to have accountability for these bond dollars with a citizen oversight committee. We will also prioritize locally owned businesses to provide services included in the bond via a Community Benefits Agreement. As **the Community's College**, LCC will be here to help invest in this community to benefit all our citizens.
