

Van Certification SafeColleges Training

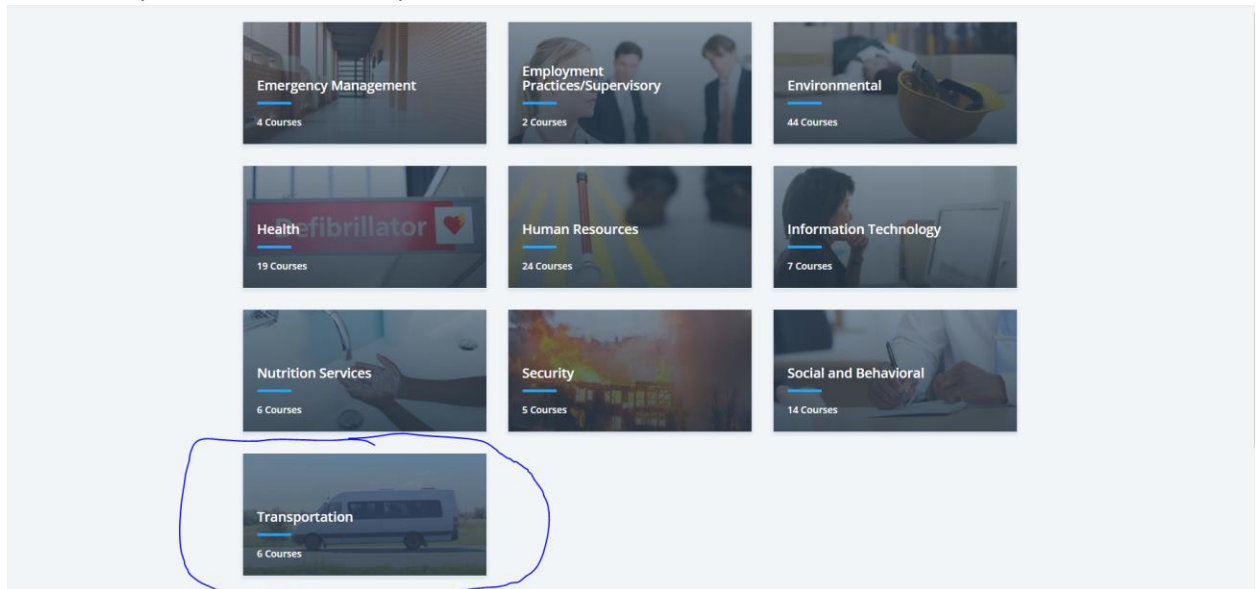

1. Open your internet browser and go to <https://lanecc-or.safecolleges.com/login>.

2. Once you are there you will need to enter your L# (including the L) into the username box and then click "log in". The next page should show you your name and that you are with LCC. If your L# is not working please contact Facilities Management & Planning by phone 541-463-5000 or email facilitiesoffice@lanecc.edu. All staff & faculty should have an account by default but students will need to contact us first to get the account set up.
3. You should be at a page similar to the one below and it should be showing you any training you have already completed. You will want to click on the arrow in the "interested in extra training" section.

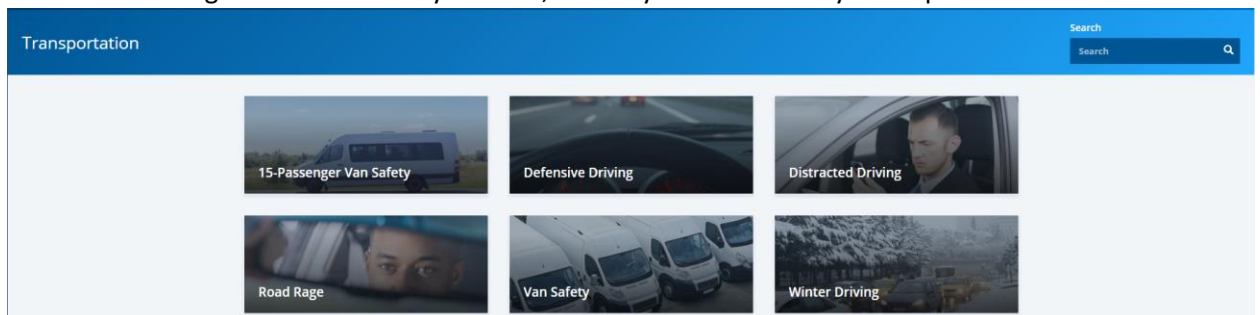

- From here you will find the transportation tab and click on it.

This will take you to the full list of transportation trainings.

We are requiring the “15 Passenger Van Safety” training to be done. You may also take any of the other trainings in this section if you want, but only the “Van Safety” is required.

- Once you have completed any of the trainings you should get a certificate of completion. You must either email it to facilitiesoffice@lanec.edu or print it out and bring it with you to the front desk at Facilities Management & Planning in building 7 room 204.
