

## Fast Forward to Your Future

# High School Connections

High School Connections has several programs to help you make the transition from high school to college. The College Now program allows you to earn college credits for classes taken at your high school, and RTEC provides opportunities to take regular college classes on the Lane campus while still in high school (early college). Career Pathways will help you determine the sequence of classes you need to start developing your skills for a career. These programs provide you with several benefits including:

- Opportunities to jump-start your college education while still in high school
- Opportunities for **free** college classes
- A chance to explore your career interests without paying college tuition
- Services to help you find the right career for you

You may have a lot of questions about your future and college. We are here to help, and we care about your success! Call us today at 541.463.5521, or visit [lanecc.edu/hsconnections](http://lanecc.edu/hsconnections) to find out more.

For more information, visit [lanecc.edu/hsconnections](http://lanecc.edu/hsconnections) or contact the High School Connections office at 541.463.5521 or [hsconnections@lanecc.edu](mailto:hsconnections@lanecc.edu).

# High School Connections

## College Now

Through College Now, you can earn college credits for Lane classes taken right at your high school.

- Classes are taught by college-approved high school teachers with college course outlines and textbooks.
- You earn college credits while satisfying high school graduation requirements.
- **College Now classes are free!**
- The courses offered vary from school to school. To find out which courses are available at your high school, check with your high school counselor or visit our website at [lanecc.edu/hconnections](http://lanecc.edu/hconnections).

## RTEC

RTEC, Regional Technical and Early College, is a collaborative effort with local schools to provide early college opportunities to high school students.

- Classes are held on the Lane Community College campus.
- Classes are focused on career and technical areas such as:
  - Trade Skills Fundamentals
  - Automotive Technology
  - Culinary Arts and Hospitality Management
  - Drafting
  - Health Professions
  - Computer Programming
- To see a complete list of Career and Technical classes, visit our website at [lanecc.edu/hconnections](http://lanecc.edu/hconnections).

## Career Pathways

Career Pathways will help you pick the classes you need to begin working toward a career.

- You can start this coursework during high school or at Lane Community College.
- Sample career pathway certificates include:
  - Basic Manufacturing/Machining Technician
  - Game Programming in C++
  - Basic Health Care
  - Office Software Specialist
  - Payroll Clerk
  - Legal Office Skills
  - Small Business Ownership
  - Infant and Toddler
